800 Authors Face to Face

We'll suppose you are a person of more than ordinary Intelligence, but not a scholar; one of the average sort of American citizens.

How much, then, do you possess of that real knowledge of books and authors that, at first thought, you'd say you knew all about?

Candidly now, isn't your stock of this kind of knowledge pretty well

confined to hearsay?

Haven't you derived your ideas of the ancient tales and romances, and of many of the famous modern books, almost entirely from chance allusions that you have run across in the books of the day and in conversation?

If these famous works are worthy of the respect you are paying them, aren't they worth a closer acquaintance?

Too busy? That's what the

International Library

is for. All good authors have written some things that are superlatively good, and others that are comparatively unworthy. You are too busy to read through all to select the best.

It has been done for you-and (pardon us) better than you could do it. The master minds of two continents have spent a generation in

The result was important enough for us to outbid all offers for an entire edition-it enabled us to offer the half price that has benefited thousands already.

And now the books are

They may last a week-maybe two or three-it depends on you. But there will be no more at the half price when these are gone.

Twenty massive volumes, over ten thousand pages, with more than five hundred full-page illustrations, give the very best of the writings of all the best writers of all countries and all times.

Will you buy it now or wait a month and pay twice our club price?

The complete set (20 big vols.), any binding, is sent to those joining the Wanamaker Club.

The membership fee is ONLY \$1. You are allowed ten days to examine the books. If you choose to return them, your dollar is refunded. If you keep them, you pay monthly for 15 months:

\$2 for cloth binding, \$3 for half-morocco, \$4 for rich three-quarter levant, or \$6 for sumptuous full levant, such as delights the connoisseur. We recommend one of the leather bindings as being more appropriate for so large a volume, and more durable. Specimen pages and full information concerning club membership mailed free,

One and One-Half Million Pieces of Muslin Underwear

THIS is a store of large achievements, and "biggest" is a word that we often use. We used it in reference to the White Occasion last Winter. We use it again to-day, for last Winter's event now takes second place, and the five months of store progress is indicated by a new superlative.

Last January, a million pieces of underwear. This May, between one and one-half and two million pieces. Prodigious preparation necessitated by your prodigious favor.

We emphasize these quantities because they have never been approached in the history of any other American store, and because they mean something besides bigness. The public knows that it is the quantity that makes the price, and the heavier the quantity the lower the price. Consequently, the

largest quantities ever recorded in buying mean the lowest prices ever recorded in selling. Important as quantities and prices are, they take second place to that supreme feature, quality. For

It is Their Goodness That Has Made Our Garments Famous and Thus Made Possible These Quantities and Prices

The horrors of the sweat-shop system have no place here. We give you the same class of work that you would give yourself, if the garments were made in your own home.

Absolute cleanliness, not only of material, but of surroundings and atmosphere; skilful and high-paid work, under the best conditions; the highest known grades of materials ever used for these purposes;—these are the features that govern the production of these pieces.

Prices will not speak for themselves, until the garment is examined and queried also.
